

The staff and children continue to enjoy all the play opportunities and experiences OPAL has to offer at Pendragon.

Another fun half term living the OPAL life!
Large parts have been introduced and we have observed amazing resilience, team work and problem solving skills.

Thank you to John Henry Group Longstanton for donating cable drums and all the families who supplied us with pallets back in January. We are very much in need of more of these resources plus scaffold boards.

Please contact Mrs Willmore if you think you can help!

More fun den building, bug hunting and creative play

As you know OPAL involves playing out in most weathers. If you have any spare wellington boots or waterproof trousers and jackets that you no longer require, we welcome all donations. There will be an OPAL unit in the foyer after half term for these. Thank you in advance.

Thank you to Homebase, Dobbies and Dani Rayner for donating flowers and herbs for our planters. Thank you to FRIENDS for funding the summer houses, two of which have now been built. We look forward to using these as chill out spaces next half term.
