

It's crazy to think we have completed our first year of OPAL. Staff and children continue to have fun living the OPAL life!

Sheets of all different sizes and colours as well as large waterproof materials and tarpaulins have been added to the environment. Yet again we have observed amazing resilience, team work and problem solving skills.

We are always on the look out for OPAL resources, you can never have enough loose parts to enhance the children's play. Thank you to everyone who has left donations in the foyer, these will be cleared over the summer ready to receive more. If you are having a clear out we welcome all donations. An updated resource list is attached. Thank you in advance.

More creative play, role play
with dolls and soft toys,
colouring, craft and building

with Lego.

Thank you to FRIENDS for purchasing our new swing bars,
they are being enjoyed by all ages.

Thank you to Dave Head & Sons Grab hire for making an
incredible start to our giant sandpit. The ground has now been
prepared and we are ready for the next phase of the build.
